**Faculty Position in the Division of Infectious Diseases and Global Health,  
Department of Pediatrics, UCSF School of Medicine and UCSF Benioff  
Children's Hospitals**

The Division of Infectious Diseases and Global Health in the Department of Pediatrics at the University of California San Francisco (UCSF) is inviting applications for a faculty position.

This will be a full-time position at the Assistant or Associate Professor rank in the Clinical series. Responsibilities will include clinical care and teaching on the Pediatric Infectious Diseases inpatient consult service and in the outpatient clinic. While our division also serves the UCSF Benioff SF campus, this position will be based at the UCSF Benioff Children's Hospital Oakland campus where we serve a diverse population from a wide catchment area. We seek candidates whose experience, teaching, research, and community service has prepared them to contribute to our commitments to diversity and excellence. Candidates with special interest in medical education are encouraged to apply.

While we aim to fill the position as soon as possible, we will consider applications from fellows anticipating graduation in July 2021.

*Please use the following web portal to submit application materials. But reach out to us directly for more details about the position.*
