

Company: UPMC Children's Hospital of Pittsburgh/Univ of Pittsburgh
Job Title: Assistant/Associate Professor

The Division of Infectious Diseases at the UPMC Children's Hospital of Pittsburgh (CHP) and the Department of Pediatrics, University of Pittsburgh is recruiting a full-time faculty member (MD, MD/PhD, or equivalent) at Assistant/Associate Professor rank in the non-tenure track with expertise in infectious diseases among transplant and immunocompromised patients. The role will include sharing responsibilities with other TID physicians to support the solid organ and stem cell transplant services.

Duties will include ~60% clinical effort providing consultative infectious disease inpatient patient care and some outpatient clinics, including pre-transplant evaluations. Other duties include development of clinical guidelines, participation in transplant clinical conferences, and providing advice to transplant services. The role will include time dedicated to developing TID programs which may include but is not limited to seeking external support for investigator-initiated research (clinical/translational/bench) and/or innovation, clinical trials, systematic local and/or national quality improvement projects, and related scholarly work. The faculty member will also participate in fellow, resident, and medical student education.

Qualifications you are seeking: CHP is a 315-bed state-of-the-art hospital that opened in 2009 serving a >2.6 million population catchment area in Western Pennsylvania. CHP was ranked 8th in the nation overall in the 2019-2020 U.S. News & World Report Honor Roll of America's "Best Children's Hospitals." CHP performs liver, intestine, multivisceral, heart, lung, kidney, and HSCT. In 2018, CHP performed 31 liver, 13 heart, 14 kidney, and 42 HSCT transplants. The University of Pittsburgh holds >\$500 million of NIH funding and ranks fourth among more than 3,000 entities that receive NIH support. Pitt offers an extremely collegial environment, with expertise in microbial pathogenesis, immunology, structural biology, and many other disciplines. Pittsburgh is a vibrant city with art and music treasures, easy access to the great outdoors, and charming neighborhoods, and an excellent cost of living. Pittsburgh is home to the exciting Pittsburgh Steelers, Pirates, and Penguins, and the world-renowned Pittsburgh Symphony Orchestra. Learn more at www.coolpgh.pitt.edu.

Applicants should send a curriculum vitae, a statement of current and future research interests, and three letters of recommendation to: John Williams, MD, c/o Kathy Kotova, Division of Pediatric Infectious Diseases, UPMC Children's Hospital of Pittsburgh, Rangos 9th floor, 4401 Penn Ave, Pittsburgh, PA 15224.
