

The Division of Pediatric Infectious Disease and Immunology at Atrium Health Levine Children's Hospital is seeking a fifth physician to join their clinical faculty.

The Division includes four academic clinicians who have established programs in antimicrobial stewardship, infection prevention, immunology/immunodeficiency, telemedicine, and global health. Current areas of research are focused on congenital/neonatal infections, primary immunodeficiencies, tuberculosis, and antimicrobial stewardship.

Responsibilities will include:

- Clinical care in inpatient and ambulatory settings
- Education of resident and medical students
- Development of a clinical program to support a growing immunocompromised population, including solid organ transplant and bone marrow transplant patients
- Participation in research or quality improvement projects

Qualifications you are seeking: Candidates must be a MD, MD/PhD, or equivalent and Board Eligible / Board Certified in Pediatric Infectious Disease.
