

Company: Cincinnati Children's Hospital

Salary range: Competitive salary commensurate with experience

Job Title: Assistant or Associate Professor

The Cincinnati Children's Hospital Infectious Diseases Division seeks an MD or MD-PhD faculty member at the Assistant or Associate Professor level. The ideal candidate will divide his/her effort between patient care and academic activities, and will have a defined academic focus in research, transplant ID, infection prevention, antimicrobial stewardship, education, or other academic area of specialization within pediatric ID. The amount of clinical effort for this position will vary from 30-70%, depending upon the individual strengths and career plans of the candidate. The Cincinnati Children's Hospital Infectious Diseases Division has existing strengths in many areas of basic and clinical research; including in viral pathogenesis, host-microbe interactions, mechanisms of inflammation and tolerance, vaccine development and clinical trials, transplant/immunocompromised infectious diseases, infectious diseases epidemiology and surveillance, infection prevention, and antimicrobial stewardship. The successful candidate will receive dedicated mentoring to enhance their clinical and academic career development. Cincinnati Children's Hospital Medical Center (CCHMC) is a vibrant academic medical center and one of the top children's hospitals in the world, with 670 beds and operations of >\$2.3 billion annually. Academic efforts at CCHMC are supported by outstanding infrastructure and a substantial research endowment administered through the Cincinnati Children's Research Foundation.

The ideal candidate will divide his/her effort between patient care and academic activities, and will have a defined academic focus in research, transplant ID, infection prevention, antimicrobial stewardship, education, or other academic area of specialization within pediatric ID. Board certification or eligibility in pediatric infectious diseases is required.
