

Company: Mayo Clinic

Job Title: Pediatric Infectious Disease Specialist

The Division of Pediatric Infectious Diseases:

The division provides inpatient and outpatient infectious diseases specialty care to children with highly complex medical and surgical problems, including children with cancer or who are undergoing stem cell or solid organ transplantation, through the comprehensive, growing multi-specialty practice at the Mayo Clinic Children's Center. Division members collaborate with a designated pediatric infectious diseases pharmacist in this care. The work is complemented by access to the world-renowned Mayo Clinic Clinical Microbiology lab, which is led by specialists in culture and molecular diagnostics, susceptibility testing, and infectious diseases pathology, and the Primary Immunodeficiency Center, which is a referral center for the Jeffrey Modell Foundation.

Division members are actively engaged in a variety of other activities, playing leading roles internally and nationally in: clinical, translational, and basic research with support from the National Institutes of Health, industry, and intramural sources; education; infection control and prevention; public health; disaster preparedness and management; antimicrobial stewardship; and quality improvement.

Mayo Clinic Children's Center:

Mayo Clinic Children's Center is a multidisciplinary group practice that focuses on providing comprehensive, high quality, compassionate medical and surgical care to children and adolescents. The Center includes 200 pediatric specialty physicians, scientists and researchers--spanning 30 medical and surgical departments--who provide care for over 50,000 children and teens each year. The Children's Hospital has been ranked in all 10 pediatric specialties by U.S. News and World Report.

Mayo Clinic:

Mayo Clinic is ranked as the best hospital in the nation by U.S. News and World Report. We are the largest integrated, not-for-profit medical group practice in the world with over 4,800 physicians and scientists across all locations working in a unique environment that brings together the best in patient care, groundbreaking research and innovative medical education.

Mayo Clinic offers a highly competitive, comprehensive benefits package that includes plenty of options for medical, dental and vision care; flexible spending accounts; life insurance; short and long term disability coverage; generous time away, travel and professional expense allowances; and more! We are proud to be among the few U.S. companies to provide a pension benefit at no cost to employees plus you can add the Mayo 403(b) plan which features an employer match.

Diversity and inclusion are integral to Mayo Clinic's mission to provide excellent, culturally relevant care in a welcoming environment to patients from a wide variety of backgrounds. We aim to diversify our workforce to represent the communities we serve and continue to create an inclusive environment where differences are valued, allowing individuals to achieve and contribute to their fullest potential. This commitment is woven into the fabric of Mayo Clinic — we embrace these values as we serve our patients, employees, students, and communities.

The Division of Pediatric Infectious Diseases at Mayo Clinic in Rochester, MN, invites you to join our team! We are seeking an additional member to join our experienced, diverse team of specialists. Qualifications you are seeking: We hope to add a staff member with complementary skills and experience in areas such as the infectious complications of transplantation, immunology and immunodeficiency, antimicrobial resistance and stewardship, infection prevention and control, emerging infectious diseases, disaster preparedness, global health, and/or clinical microbiology. Candidates must be board-certified/board-eligible in pediatric infectious diseases, have outstanding clinical and teaching skills, and experience in basic, clinical or translational research. Board Certified / Board Eligible in Pediatric Infectious Diseases.

Current MN licensure or ability to obtain licensure upon acceptance of an offer. Mayo Clinic is located in the heart of downtown Rochester, Minnesota, a vibrant, friendly city that provides a highly livable environment for more than 34,000 Mayo staff and students. The city is consistently ranked among the best places to live in the United States because of its affordable cost of living, healthy lifestyle, excellent school systems and exceptionally high quality of life.
