

Company: BronxCare Health System (BCHS)

Job Title: Pediatric ID Attending

Brief description of the position:

1. Great opportunity to work in BCHS, providing care to an urban underserved, under privileged including minority and young adult population, within the catchment area in the South and Central Bronx, served by the Department of Pediatrics.
2. To serve as an attending providing primary care to HIV-infected children, adolescents, teenagers and young adults.
3. To serve as a specialist providing specialty care to HIV-infected children, adolescents, teenagers and young adults.
4. To provide consults to all departments and divisions in BCHS in need of services by a Pediatric Infectious Disease specialist, including but not limited to the following areas.
 - A. Pediatric in-patient floor.
 - B. Pediatric Emergency Department.
 - C. Pediatric clinics, including satellite clinics under BCHS.
 - D. Other areas as required by BCHS.
5. To assume clinical responsibilities in our Travel Medicine Clinic/Program.
6. Academic background to oversee our Pediatric Grand Rounds Program is preferred.
7. Academic background to oversee our Pediatric Resident Research Program for first, second- and third-year residents and assume mentoring responsibilities is preferred.
8. Potential opportunity to work with, and serve as a co-investigator in multi-centered NIH network studies including Maternal, Perinatal, Pediatric and young adults with HIV.
