

Pediatric Infectious Diseases Physician in Coastal Charleston, South Carolina

The Medical University of South Carolina (MUSC), located in coastal Charleston, SC, seeks an exceptional pediatric infectious diseases physician to join a small but dedicated group of physicians looking forward to growing and developing the division over the next few years. The Division of Infectious Diseases resides within a highly collaborative and academically diverse Department of Pediatrics and also enjoys a close working relationship with the Infectious Diseases Division in the Department of Internal Medicine. A successful candidate will collaboratively contribute to the operation and expansion of our division with coverage of the inpatient and outpatient clinical services and join us in our clinical, teaching and quality improvement missions. Exciting opportunities exist for the faculty member depending on individual interest and expertise in transplant infectious disease, antimicrobial stewardship, infection prevention, clinical/translational research, telemedicine, and fellowship curriculum development.

Transforming fetal, women's and children's care for the region, in 2020 MUSC Children's Health opened the **Shawn Jenkins Children's Hospital** — a 100,000 square foot, 250-bed, state-of-the-art building. U.S. News & World Reports ranks MUSC the best children hospital in South Carolina. Along with our nationally ranked clinical care is MUSC's major pediatric clinical research center, the Charles P. Darby Research Institute, enabling us to continually imagine what's possible—today, tomorrow and beyond.

musckids.org

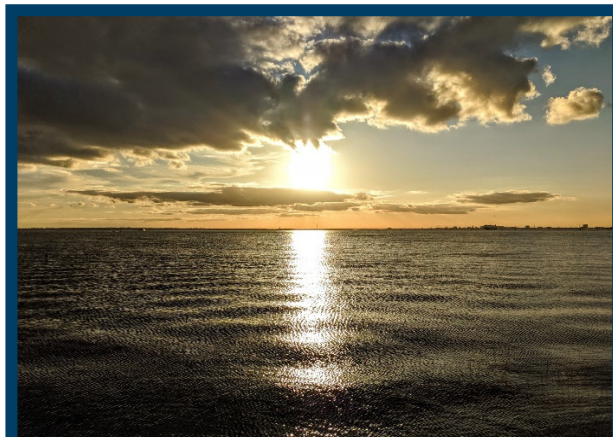

Ideal Candidates:

- MD, MD-PhD, DO
- Board-certified/board-eligible pediatric infectious diseases specialist
- Strong clinical skills and a commitment to quality improvement and evidence-based medicine in teaching and practice
- Candidates with expertise/interest in transplant infectious disease, antimicrobial stewardship, infection prevention, clinical research, and/or telemedicine are encouraged
- Candidates seeking a combined position in pediatric and adult infectious diseases will be considered

MUSC Offerings:

- Relocation assistance
- Competitive pay and signing bonus
- Excellent retirement options, including a pension and optional tax-deferred contributions
- Sovereign immunity malpractice coverage
- 22 days of annual leave, 15 days of sick leave, and 13 paid holidays
- Public Service Loan Forgiveness (PSLF) Program Qualified Employer
- Salary and professional level of appointment will be commensurate with experience

For additional information or to apply for the position, please contact the MUSC Provider Recruiter Kelsey Brown at brownkel@musc.edu
