

Company: Rutgers RWJ Med School

Job Title: Assistant or Associate Professor of Pediatrics

Brief description of the position: The Department of Pediatrics, Rutgers Robert Wood Johnson Medical School, Rutgers Biomedical and Health Sciences (RBHS) is seeking a candidate trained in pediatric infectious diseases for a faculty position in the division of Allergy, Immunology and Infectious Diseases. The position will have both clinical and academic responsibilities. In support of our academic endeavors, we have a state-of-the-art Pediatric Clinical Research Center, Child Health Institute of New Jersey, and Clinical and Translational Science Award (CTSA) at RBHS. Candidates will be expected to provide ambulatory and inpatient consultative services, teach medical students, residents and fellows, and participate in some clinical research activities. Start-up grant funding is available for qualified applicants. The inpatient clinical services of the division of Pediatric Infectious Diseases are conducted at the Bristol-Myers Squibb Children's Hospital (BMSCH) of the Robert Wood Johnson Barnabas Hospital in New Brunswick, NJ. This is a 105 bed acute care hospital located on the only pediatric academic health campus in the state of New Jersey. The BMSCH is ranked as one of America's Best Hospitals by U.S. News and World Report.

The Department of Pediatrics has a full complement of pediatric medical and surgical subspecialists, and outpatient services are provided at the Child Health Institute of New Jersey which also houses our research faculty. The Department of Pediatrics includes physicians and basic scientists who conduct collaborative research with an emphasis on mechanisms of disease, novel therapies, epidemiology and/or outcomes research in the areas of relevance to childhood diseases. The Department provides a collaborative setting for the study of basic mechanisms of disease and outcomes research that would provide new insights to the treatment of childhood diseases. The Robert Wood Johnson School of Medicine is consistently ranked as one of the highly NIH-funded academic universities and Rutgers is a member of the Association of American Universities comprising the top comprehensive research universities in North America. Adjacent to the Children's hospital is the PSE&G Children's Specialized Hospital which is one of the country's largest inpatient acute rehabilitation hospitals for children. Across the street is the Rutgers Cancer Institute of New Jersey – the only NCI designated center in the state of New Jersey as well as the Ronald MacDonald House. As the state's premiere institution, located in central Jersey, there are many opportunities to collaborate across campuses with all the health professional schools and biomedical science schools at the Rutgers Biomedical and Health Sciences (made up of seven health professional schools).

Qualifications you are seeking: Candidates must be a graduate of an accredited medical school program including formal specialty training in Pediatric Infectious Diseases, and must be board certified in pediatrics with board eligibility in pediatric Infectious diseases.
