

Company: Rutgers RWJ Med Sch

Job Title: Assistant or Associate Professor of Pediatrics

Brief description of the position: RWJBarnabas Health and Rutgers Robert Wood Johnson Medical School is Seeking a Pediatric Infectious Disease Physician in New Brunswick, NJ

The Department of Pediatrics, Rutgers-Robert Wood Johnson Medical School, and RWJBarnabas Health is seeking a candidate trained in Pediatric Infectious Diseases for a faculty position in the Division of Allergy, Immunology & Infectious Disease. The new faculty member will have clinical, teaching and other academic responsibilities within the Division and the Department of Pediatrics. The candidate will be Board Certified/Board Eligible in Pediatric Infectious Diseases. This is an exciting opportunity for a dedicated physician who is passionate about academic medicine and clinical/lab bench research. The ideal candidate will join a well-established team of six full-time faculty members.

There are opportunities to collaborate with clinicians in all pediatric subspecialties, and to participate in clinical research. The faculty member will report to the Division Director for clinical activities, career development, research and related educational and scholarly activities. Academic rank will be commensurate with qualifications and experience.

Experienced physicians and new graduates are encouraged to apply!

About Rutgers Robert Wood Johnson Medical School:

The Department of Pediatrics has a full complement of pediatric medical subspecialists who actively collaborate with pediatric surgical specialists in clinical care and academic endeavors. In the department are 124 physicians and basic scientists who conduct collaborative research with an emphasis on mechanisms of disease, novel therapies, epidemiology and/or outcomes research in the areas of relevance to childhood diseases. Our centers of excellence include The Boggs Center on Developmental Disabilities, Child Health Sciences, and the Institute for the Study of Child Development. The Department has recently expanded by more than 40 new faculty members and plans to recruit additional faculty, to expand our research, education, and clinical programs and provide improved care to our patients. The outpatient services are located in the Rutgers Child Health Institute of NJ, a state of the art facility that includes a Pediatric CRC, Pediatric subspecialty offices, and a modern research facility. Our New Brunswick-based clinical programs have achieved Accredited Status for Ambulatory Health Care by the Joint Commission, one of only a small number of academic ambulatory practices with this status. Adjacent to the RWJ Barnabas Bristol-Myers Squibb Children's hospital is the PSE&G Children's Specialized Hospital, which is one of the country's largest inpatient acute rehabilitation facilities for children. Across the street is the Rutgers Cancer Institute of NJ – the only NCI designated center in the state of New Jersey.

The Robert Wood Johnson School of Medicine is consistently ranked as one of the highly NIH-funded academic universities and Rutgers is a member of the Association of American Universities comprising the top comprehensive research universities in North America. As the state's premiere institution,

located in central New Jersey, there are many opportunities to collaborate across campuses with all the health professional schools and biomedical science schools at the Rutgers University.

Central New Jersey is a family friendly location offering urban and suburban life-styles within one hour of NYC, Philadelphia and the Jersey shore, as well as Rutgers Big Ten athletics and cultural events.
