

PEDIATRIC INFECTIOUS DISEASES FACULTY POSITION
WEILL CORNELL MEDICINE NEW YORK, NY

The Division of Pediatric Infectious Diseases of Weill Cornell Medicine is seeking a Junior Physician-Scientist to join our full-time faculty. Qualified candidates must be Board Certified/Board Eligible in Pediatric Infectious Disease, have a strong interest in research (clinical, basic or translational) and clinical care.

Interested candidates, MD or MD/PhD, should have an active clinical area of interest and be able to develop independent research and secure extramurally-funded research that addresses child health and their area of interest; they should generate, summarize, and present results in internal and external meetings to a variety of audiences; lead and contribute to the writing of scientific reports and publications.

Interested candidates should also possess a strong commitment to clinical care and have the skills to manage a wide range of infectious diseases and its complications, including preterm infants and immunocompromised hosts. The pediatric infectious diseases team provides coverage of the inpatient consult service, outpatient clinic, and is involved with pediatric resident and medical student education.

Candidates will be eligible for a faculty appointment with Weill Cornell Medicine commensurate with their experience and accomplishments and education. Weill Cornell Medicine is an Equal Opportunity Employer and is committed to equal opportunity for all candidates for employment and employees. The Department of Pediatrics provides comprehensive care to children throughout the 5 boroughs via a Level IV NICU, level III PICU, General Pediatrics and multiple subspecialties at the New York Presbyterian/Phyllis and David Komansky Children's Hospital and Weill Cornell Medicine.
