

Company: University of Iowa Department of Pediatrics

Salary range: commensurate

Job Title: Pediatric Infectious Disease Faculty

Brief description of the position: University of Iowa Stead Family Department of Pediatrics seeks a pediatric infectious diseases specialist. Appointment rank is open and may be to either the tenure track or clinical (non-tenure) track consistent with clinical experience and research interest. Appointment rank to Associate of Pediatrics (non-tenure track) may also be considered. The individual selected will join the Division of Infectious Diseases to provide patient care, teaching, and consultative services specializing in infectious diseases. Opportunities exist for either a clinician or a physician-scientist. The individual selected will join the Division of Infectious Diseases to provide patient care, teaching, and consultative services as an infectious disease physician. The Division of Pediatric Infectious Diseases Division is a 5-faculty member group with each participating in-patient care. In addition, we provide both hospital epidemiology and antimicrobial stewardship leadership for Stead Family Children's Hospital. We also have active NIH-funded basic science research in the areas of fungal pathogenesis and antifungal drug discovery, host-pathogen interactions, and virology. Finally, the group participates in clinical trials evaluating new antimicrobial drugs and vaccines. We are looking for someone who will contribute to these missions as well as develop new directions for the division
