

Company: Johns Hopkins University School of Medicine

Job Title: Chief of Pediatric Infectious Diseases

Brief description of the position: The Department of Pediatrics at the Johns Hopkins University School of Medicine is recruiting a dynamic physician-leader to become the next Chief of the Eudowood Division of Pediatric Infectious Diseases. The mission of the Johns Hopkins Department of Pediatrics and Johns Hopkins Children's Center is to provide patient- and family-centered health care in a diverse and inclusive environment, to be a leader in innovative research that leads to prevention and effective treatment of childhood diseases, and to train the next generation of leaders in pediatric medicine. The Eudowood Division of Pediatric Infectious Diseases manifests the tripartite mission of Johns Hopkins Medicine as it furthers the scientific basis for diagnosis and management of pediatric infectious diseases, trains the next generation of scientific leaders in pediatric infectious diseases, and provides optimal clinical care for pediatric patients within Johns Hopkins Medicine. The history of the division speaks to its strong commitment to innovative research, education and outstanding clinical care. Our highly reputable ACGME-accredited three-year fellowship program attracts fellows from top programs nationally, offering a rich educational environment.

Qualifications you are seeking: The next Chief of the Eudowood Division of Pediatric Infectious Diseases will have the opportunity and resources to build on existing strengths and further develop the division into one that realizes the significant academic potential of clinical, translational and basic-science faculty. Candidates should have a medical degree (M.D./D.O./M.B.B.S.), board certification in pediatric infectious diseases and at least three years of administrative or leadership experience. We seek an experienced clinician-scientist with a strong academic portfolio, an independent research program and experience mentoring junior faculty and fellows. Appointment at the associate or full professor level is expected. Applicants from groups underrepresented in medicine are strongly encouraged to apply. Interested applicants should provide an electronic letter of interest and curriculum vitae to:

Barry Solomon, M.D., M.P.H., Search Committee Chair, Professor of Pediatrics, Division Chief of General Pediatrics, bsolomon@jhmi.edu.
