

Company: University of Virginia

Job Title: Physician-Scientist

Brief description of the position: The Department of Pediatrics at the University of Virginia School of Medicine seeks an MD, MD/PhD or equivalent Physician-Scientist with subspecialty training in pediatric infectious diseases to join our Division of Pediatric Infectious Diseases. The successful candidate will be expected to develop an independent research program aiming to serve through scientific discovery.

Ideal candidates will be laboratory-based, clinical or translational investigators with a record of research accomplishment that demonstrates not only achievement but strong ongoing potential for establishing an innovative research program that can attract sustained extramural funding. The chosen candidate will be appointed at the Assistant Professor level and receive a generous start up package with protected time to create and maintain their research program. Candidates will also be expected to provide clinical care to children with infectious diseases on our consult service and within our ambulatory clinic. Applicants must have experience treating infections in immunocompromised hosts including in the care of children who have undergone hematopoietic stem cell transplantation. The incumbent is expected to participate in divisional teaching activities.

The University of Virginia and affiliated UVA Health form the premier medical research institution in the Commonwealth of Virginia. Our UVA Children's Hospital was recently named Number 1 children's hospital in Virginia 2021-2022 by the U.S. News & World Report. The appointee will join an outstanding division comprised of both internationally-renowned experts in molecular microbiology research and dedicated clinicians. The faculty member will be welcomed into the highly collaborative environment of the University of Virginia and have ready access to a number of research-oriented schools and centers across grounds provide a rich platform for shared discovery.

The University of Virginia is located in Charlottesville, VA, situated in the Blue Ridge mountains and picturesque Shenandoah Valley just 100 miles from Washington, DC. Our region boasts outstanding opportunities for outdoor recreation year round, including hiking, water-based recreation and skiing. Likewise, it is a short drive to Virginia Beach and other types of costal recreation. Some of the finest restaurants and music are showcased on the Downtown Mall, the longest contiguous outdoor mall in the US. Our city is serviced by a regional airport, and travel by rail to cities throughout the eastern US is accomplished via a train station within walking distance of UVA. Charlottesville is routinely listed among the most desirable cities in which to live, raise a family and retire.
