

Phoenix Children's®

Seeking Candidate for Pediatric Infectious Diseases, Clinical Attending Faculty, Full-Time Position

The Division of Infectious Diseases at Phoenix Children's in Phoenix, AZ is seeking to recruit a pediatric ID physician to provide clinical care at Phoenix Children's and other affiliated locations in the metropolitan Phoenix area.

The successful applicant is expected to be board-certified or board-eligible in pediatric infectious diseases and have a commitment to patient care and trainee education. The applicant has the opportunity to have a clinical faculty title at The University of Arizona College of Medicine, Mayo Clinic- Scottsdale, and/or Creighton University College of Medicine.

The position involves primarily clinical and teaching responsibilities:

- Inpatient pediatric infectious diseases consultation
- Teaching of medical students, residents, and clinical fellows (non-ID Phoenix Children's fellows, and visiting Mayo Clinic pediatric and adult ID fellows)

The division has responsibilities for Antimicrobial Stewardship, Infection Prevention & Control and Transplant Programs for bone marrow/stem cell, heart, liver and kidney. Opportunities for involvement in these areas and in pediatric HIV medicine are all available.

Phoenix Children's is a 433-bed, freestanding specialty children's hospital located in Phoenix, Arizona. The hospital serves a spectrum of patients ranging from local community general pediatric patients to the most complex patients from throughout Arizona and into surrounding states and northern Mexico.

Interested applicants should call or email for further information:
