

Company: City of Hope

Job Title: Physician- Pediatric Infectious Disease

Brief description of the position: We invite you to consider an opportunity to join City of Hope, the world-class NCI-Designated Comprehensive Cancer Center in Southern California. This non-profit program is one of the top ranked cancer centers in the country, with an international reputation for quality of care.

The Department of Pediatrics at City of Hope National Medical Center is seeking an early to mid-career pediatric infectious disease specialist.

Position Highlights:

Provide patient-centered care in collaboration with a world class, nationally recognized team of pediatric oncologists. This is a full-time position reporting to the Chair of the Department of Pediatrics.

Clinical responsibilities to include outpatient and inpatient infectious disease management

Protected academic time and opportunity to collaborate with distinguished and nationally recognized leaders in oncology

Opportunity to embark in enterprise-wide initiatives such as assessment of post-cellular therapy immune reconstitution, re-vaccination post-cancer and cellular therapy efforts, and survivorship

Potential for incentive compensation and an excellent benefits package, including a generous retirement plan (no match requirement)

Qualifications:

Experience working in an academic medical center or specialty cancer center that delivers both clinical and translational research to patients diagnosed with cancer

Applicants must have an M.D. or equivalent degree, be fellowship trained in pediatric infectious disease, and be Board certified, or be Board eligible and plan to be certified within the next two years

Academic record consistent with appointment at early to mid-career Assistant Professor level at City of Hope National Medical Center

The selected candidate for the position must be eligible to obtain or already hold an active California medical license.

Who We Are:

This position is a rare opportunity to work in a 400+ member integrated, multidisciplinary Medical Group Practice serving an NCI-designated comprehensive cancer center in highly desirable Southern California, within our highly respected Department of Pediatrics. City of Hope is an expanding

institution in both numbers of patients per year as well as infrastructure investment in clinical, academic and research facilities.

City of Hope is an equal opportunity employer that values diversity, and candidates of all backgrounds are encouraged to apply.
