

Company: St. Luke's Health System

Job Title: Physician: Pediatric Infectious Disease in beautiful Boise, Idaho

Brief description of the position: St. Luke's Children's Hospital is seeking a BC/BE pediatric infectious disease specialist for a part-time clinical position, to join our dedicated team of 2 experienced physicians in Boise, Idaho. This position is primarily focused on inpatient pediatric infectious disease consultation service, with occasional need for outpatient clinic coverage, all on the Boise campus. Our team manages the full spectrum of inpatient and outpatient pediatric ID diagnoses, solid organ transplant, oncology and bone marrow transplant patients. The Children's Infections and Immune Deficiency Clinic provides long term care for children with HIV/AIDS, and for those with primary immunodeficiency disorders, in addition to acute infectious disease management and hospital follow-up care.

When on call, this physician will be responsible for routine ID consultative services, as well as telephone consultation with other physicians/providers, and as needed for urgent hospital infection control issues. This position includes shared holiday call with the other practice partners, and overnight call responsibility when on hospital service. Options may exist for combined roles as pediatric hospitalist, adult infectious disease, or other specialties.

The ideal candidate will be enthusiastic about teaching and supervising medical students and residents on the peds ID rotation. Clinical faculty appointment is available with the University of Washington Medical School.

As Idaho's only Children's Hospital, St. Luke's supports a vast geographic referral network that includes Idaho, Eastern Oregon, and Northern Nevada. St. Luke's Children's is a 50 bed pediatric facility with a "hospital within a hospital" structure, within St. Luke's Regional Medical center, a 388 bed tertiary care hospital located in Boise, Idaho. St. Luke's Children's Hospital has a full complement of Pediatric Subspecialists, including level 4 NICU (without ECMO), PICU, and level 2 pediatric trauma center. As a member of NACHRI, St. Luke's Children's Hospital is committed to providing high quality healthcare to kids throughout the region. Interested applicants should have excellence in clinical care and commitment to education.

## HIGHLIGHTS

Highly competitive guaranteed base salary with potential production and quality incentives; Generous recruitment incentives could include sign on bonus, student loan repayment, training stipend and relocation; Hospital employed with great benefits, retirement, malpractice, vacation and CME allowance; Medical education opportunities teaching med students and residents.

## WHY ST. LUKE'S?

St. Luke's Health System is Idaho's largest employer and most awarded health system, with a medical staff of over 1,800 physicians and advanced practice providers. Made up of eight hospitals around central and southern Idaho, we are proud to be the only locally owned and operated, physician-led, not-for-profit health system in the state. St. Luke's has been awarded as one of the Top 15 Health Systems in the country for the eight consecutive year, designated by IBM Watson Health Analytics. We are committed to providing high quality patient care and positively impacting the lives of those in our

community. St. Luke's enjoys an outstanding reputation as both a quality employer and a superior healthcare organization.

## ABOUT BOISE

Known as the "City of Trees," Boise is Idaho's capital city—both a cultural center and a playground for those who love the outdoors. Boise is located on the Boise river in southwestern Idaho. A vibrant downtown area affords fine dining, theatre, music, and college and semi-professional sports. Downtown Boise's main attractions include the Idaho State Capitol, the classic Egyptian Theatre, the Boise Art Museum, Julia Davis Park and Zoo Boise. The Greenbelt follows the beautiful Boise River corridor for more than 30 miles, and the Boise foothills are home to miles of hiking and biking trails. Qualifications you are seeking: This position is primarily focused on inpatient pediatric infectious disease consultation service, with occasional need for outpatient clinic coverage, all on the Boise campus. Our team manages the full spectrum of inpatient and outpatient pediatric ID diagnoses, solid organ transplant, oncology and bone marrow transplant patients. The Children's Infections and Immune Deficiency Clinic provides long term care for children with HIV/AIDS, and for those with primary immunodeficiency disorders, in addition to acute infectious disease management and hospital follow-up care.
