

Company: Vanderbilt University Medical Center

Job Title: Medical Director, Pediatric Infection Prevention and Control Program

Brief description of the position: The Division of Pediatric Infectious Diseases in the Department of Pediatrics at Vanderbilt University Medical Center (VUMC) is recruiting a visionary leader to become the next Medical Director of Infection Prevention and Control. Qualified candidates should be recognized as a current or rising national or international leader in Pediatric infection control. Major responsibilities include oversight of all healthcare-associated infection prevention programs at Monroe Carell Jr. Children's Hospital at Vanderbilt and affiliated ambulatory sites. The position allows ample opportunity to partner with the children's antibiotic stewardship program, VUMC clinical microbiology laboratory, and adult infectious diseases division.

The faculty in the Pediatric ID division at Vanderbilt are recognized nationally and internationally for their contributions to research, teaching, and clinical care. Our team is continually at the forefront of research in new and innovative approaches to the diagnosis, treatment, and prevention of pediatric infections. With a multimillion-dollar research funding program, our faculty, staff, and students are committed to fundamental and clinical discovery to benefit the health of children. Division faculty includes twelve physicians, one advanced practice provider, four (4) research faculty, and one specialty nurse. Our faculty direct and/or have appointments in the Vanderbilt Institute for Global Health, the Vanderbilt Vaccine Center, the Vanderbilt Vaccine Research Program, and the Vanderbilt Institute for Infection, Immunity and Inflammation.

The Vanderbilt University Medical Center is located in the heart of Nashville, a thriving city of commerce, finance, healthcare, and music. Nashville is a wonderful place to live, work, and raise a family. Monroe Carell Jr. Children's Hospital at Vanderbilt (Monroe Carell) serves as the regional center for care in Middle Tennessee and as a referral center for critically ill children from throughout Tennessee and the Southeast. With Pediatric subspecialty Divisions nationally ranked in each of the ten (10) categories evaluated by US News and World Report, Monroe Carell offers an exceptional work environment and the opportunity to perform superb multi-disciplinary care, education, and research. Vanderbilt University Medical Center is an Equal Opportunity, Affirmative Action Employer of all protected classes, including veterans and individuals with disabilities. Women and individuals underrepresented in medicine are strongly encouraged to apply. The Medical Center offers a very competitive salary and benefits.

Please submit inquiries along with a CV to Ritu Banerjee MD, Ph.D; e-mail ritu.banerjee@vumc.org.
Qualifications you are seeking: Qualified candidates must have an MD or MD/Ph.D degree and have completed at least three years of postdoctoral or clinical fellowship training. Candidates should be recognized as a current or rising national or international leader in Pediatric infection control.
