

Assistant/Associate Professor, Clinical Pediatric Infectious Diseases and Antimicrobial Stewardship

The Division of Pediatric Infectious Diseases in the Department of Pediatrics at Baylor College of Medicine is recruiting a qualified physician to be part of an initially two-member Pediatric Infectious Diseases team who will serve as full-time faculty for the Infectious Diseases service at the new state-of-the-art North Austin campus. The North Austin campus is comprised of a 52 bed, 365,000-square foot inpatient hospital and an adjacent 170,000-square foot outpatient facility offering a full suite of specialties and subspecialties.

This position offers:

- A significant and exciting opportunity to advance your career in a new environment, as you help expand the reputable and trusted Texas Children's services in Central Texas.
- A clinically focused hospital experience with the backing and support of a premier academic medical institution.
- A chance to live and work in a vibrant, and fast-growing city with numerous extracurricular opportunities.
- The ability to benefit from the stability, resources, and long-term opportunities of a premier pediatric and women's health academic institution.

The qualified applicant will have successfully completed a Fellowship Program in Pediatric Infectious Diseases. One to 3 years Pediatric Infectious Diseases patient care experience is preferred. Board certification (or Board eligible) in Pediatric Infectious Diseases is required.

The physician will spend the majority of her/his time on the inpatient consultation service or in the Pediatric Infectious Diseases outpatient clinic and will devote a percentage of time as Medical Director of Antimicrobial Stewardship.
