

Job Post – UC San Francisco, Pediatric Infectious Diseases Faculty Positions

Job Title: Division of Infectious Diseases HS Clinical, Clinical X, Adjunct, In Residence Faculty

Organization Type: Public Institution

Job posting expiration date: 7/1/2024

The Division of Infectious Diseases and Global Health in the Department of Pediatrics at the University of California San Francisco (UCSF) is seeking to fill a full-time faculty position in the clinician-educator track at the rank of Assistant, Associate or Full Professor.

Our division provides consultative ambulatory and inpatient service at the UCSF two Benioff Children’s Hospitals, in San Francisco and Oakland. UCSF was founded in 1849 but first established a free-standing children’s hospital (183 beds) in San Francisco in 2015 that now serves as a referral center for all pediatric medical and surgical subspecialties in northern California. The children’s hospital in Oakland (190 beds) has been providing care to children in the East Bay for over 100 years and formally joined UCSF in 2014. It houses one of the five Level 1 pediatric Trauma centers in California. In 2022, UCSF Benioff Children’s Hospitals were ranked in all 10 children’s specialties in U.S. News and World Report.

We are currently looking to recruit a faculty member who has a passion for clinical excellence, teaching, and innovation and values equity and inclusion. There are open roles for leadership in Hospital Epidemiology and Infection Prevention and the care of immunocompromised children. The position will also include opportunities to teach medical trainees of all levels, including fellows in pediatric infectious disease.

Candidates must have an MD, DO, MD/PhD, or equivalent and be board certified or board eligible by the American Board of Pediatrics in the subspecialty of Pediatric Infectious Diseases. We are especially interested in candidates from diverse backgrounds. Unfortunately, we are unable to accommodate J-1 visas at this time.

Interested candidates are encouraged to submit their application materials through the provided application portal. Alternatively, they may reach out to me directly via email to obtain additional information regarding the positions. The application portal link can be found here:
