Job Post – Pediatric Infectious Disease Specialist, Texas Children’s Hospital

Company: Texas Children's Hospital
Salary range:
Job Title: Pediatric Infectious Disease Specialist
Organization Type: Non-Profit Organization

Job posting expiration date: August 2024

Brief description of the position: Department of Pediatrics | Texas Children's Hospital – Austin

Seeking a Pediatric Infectious Diseases specialist who is interested in Infection & Prevention control, and/or Antimicrobial Stewardship for Texas Children's Hospital in Austin.

This is an exciting opportunity to help contribute to the clinical and academic Division at Texas Children's Hospital, the #2 ranked children's hospital by U.S. News and World Report for 2022-23.

The Division of Pediatric Infectious Diseases in the Department of Pediatrics at Baylor College of Medicine is recruiting a qualified physician to be a part of an initially two-member Pediatric Infectious Diseases team who will serve as full-time faculty for the Infectious Diseases service at the new state of the arc North Austin campus.

Set to open in early 2024, our new hospital in Austin will increase access to quality healthcare for children and women across central Texas. Join the Texas Children's team expanding our standard of care for families across the state. This position is a rare opportunity to participate in the start, growth and expansion of a BRAND-NEW medical facility and campus aimed to serve the growing population of Austin Texas. This is a unique opportunity to build something from the ground up with the support and resources of a nationally ranked Children’s Hospital

Qualifications you are seeking: Minimum Qualifications:
• Successfully completed a Fellowship Program in Pediatric Infectious Diseases.
• One to three years Pediatric Infectious Diseases patient care experience is preferred.
• Board Certified or Board Eligible in Pediatric Infectious Diseases is required.
• Excellent interpersonal skills.
• Ability to work well within a team.
• Strong work ethic and adherence to the highest moral and ethical standards.
• Flexibility and desire for continuous improvement, learning, and dedication to excellent patient care.
