

Job Post – Advanced Practice Provider-Pediatric ID, Seattle Children’s Hospital/University of Washington

Company: Seattle Childrens Hospital/Univ of WA

Salary range: \$60.36 - \$88.77 /hr

Job Title: Advanced Practice Provider- Pediatric ID

Organization Type: Non-Profit Organization

Job posting expiration date: 2024-04-30

Brief description of the position: Responsibilities We are searching for a Nurse Practitioner or Physician Assistant to join our team of APPs and physicians. In this position, you will provide direct care and assume primary responsibility for clinical management of patients on both the inpatient infectious disease service and in the outpatient clinic. This position will focus on the evaluation and management of pediatric patients with acute and chronic infectious diseases in both the immunocompetent and immunocompromised populations. It requires collaboration with other members of the infectious disease team including attendings, residents, and both MD and APP fellows as well as with other service lines. This position currently works weekdays at the main Seattle campus.

Qualifications you are seeking: Required Education/Experience:

- For NPs: Master’s degree in nursing with a concentration in a pediatric or family nurse practitioner program
- For PAs: Graduate of a nationally accredited physician assistant program

Required Credentials:

For NPs:

- Active, unencumbered registered nurse and advanced registered nurse practitioner licensure in the State of Washington
- Current national certification as a pediatric or family nurse practitioner

For PAs:

- Active, unencumbered physician assistant licensure in the State of Washington
- Initial certification by the National Commission on Certification of Physician Assistants

Preferred:

- Two years experience in advanced practice provider role

- Two years experience in pediatric health care
- Infectious diseases experience highly valuable but not required

Potential for J-1 Waiver eligibility?: No
