

## **Job Post – Pediatric Infectious Diseases Faculty, Nationwide Children’s Hospital**

Company: Nationwide Children's Hospital

Salary range: commensurate with experience

Job Title: Pediatric Infectious Diseases Faculty

Organization Type: Non-Profit Organization

Job posting expiration date: 2025-08-27

Brief description of the position: Nationwide Children’s Hospital in Columbus, Ohio is seeking to recruit an outstanding pediatric infectious diseases physician at the Assistant or Associate Professor faculty level commensurate with qualifications and experience. The applicant is expected to be board certified or board eligible in Pediatric Infectious Diseases and have a strong commitment to clinical excellence in patient care.

- Clinical responsibilities of the position include seeing inpatient consultations and ambulatory clinic referrals and attending on our unique 26 bed inpatient ID unit.
- Academic scholarly endeavors are expected, and numerous opportunities exist for leading and participating in clinical/translational research and quality improvement efforts.
- The division’s educational mission also includes teaching medical students, residents and ID fellows.

Nationwide Children’s Hospital is the nation’s largest not-for-profit freestanding pediatric healthcare network providing wellness, preventive, diagnostic, treatment and rehabilitative care for infants, children and adolescents of central Ohio, northern Kentucky, and West Virginia. Nationwide Children’s Hospital is committed to providing the highest quality patient care to ensure the best outcomes in everything we do for children. The 527-bed hospital houses 3 pediatric and 3 neonatal intensive care units, a burn unit, is an assessment hospital for special pathogens, and performs hematopoietic cell and organ transplantations.

The successful applicant will join the Section of Infectious Diseases which currently has 20 faculty and established programs in general ID, neonatal ID, Host Defense Program, HIV patient-centered care, hepatitis C, global health/travel, antimicrobial stewardship, and hospital epidemiology and infection control/prevention. The Section collaborates closely with the Director and Associate Directors of the Clinical Microbiology Laboratory and with 17 PhD faculty with established research programs in the Center for Microbial Pathogenesis and the Center for Vaccines and Immunity. The Research Institute is ranked in the top 10 nationally for NIH funding to free-standing children’s hospitals. Research programs are organized into 12 multidisciplinary Centers of Emphasis structured to encourage collaboration, facilitate team science, and foster creativity.

Nationwide Children’s Hospital serves as the academic teaching hospital for the Department of Pediatrics of The Ohio State University College of Medicine.

Columbus is the state capital and largest city in Ohio. As the 14th largest city in the US, it is one of the fastest growing major metropolitan areas with a population of > 2 million residents. The overall cost of living in Columbus is 10% more affordable than the U.S. average, and as an up-and-coming tech city, the area's research and technology institutions are attracting the brightest minds from around the world.

Nationwide Children's Hospital is consistently ranked on U.S. News & World Report's "America's Best Children's Hospitals Honor Roll".
