

Job Post – Immunocompromised Host ID Physician, University of Texas Southwestern Medical Center

Company: University of Texas Southwestern Medical Center

Salary range:

Job Title: Immunocompromised Host ID Physician

Organization Type: Public Institution

Job posting expiration date: 2025-06-30

Brief description of the position: Candidates should have significant experience and formal training in the field of pediatric infectious diseases and experience in infectious diseases in the immunocompromised host (e.g., transplant recipients, children with malignancies). Clinical responsibilities will include in-patient and ambulatory management of pediatric infectious diseases and multidisciplinary integration with transplant (stem cell and solid organ) and oncology services. Independent research support would be ideal, though is not required. UTSW offers outstanding collaborative research opportunities.

Candidates must be board certified or board eligible in Pediatrics and Pediatric Infectious Disease. Candidates should also be an accomplished teacher in the field. Clinical activities, both in patient and out patient, are conducted at the Children's Health facility in Dallas, a 480 bed hospital that is the only academic health care facility in North Texas dedicated exclusively to the comprehensive care of children. Children's Health has active programs in oncology, bone marrow and solid organ transplantation.

Qualifications you are seeking: The University of Texas Southwestern Medical Center, Department of Pediatrics is seeking an outstanding individual at the Assistant Professor level to join the Pediatric Infectious Disease Division at the University of Texas Southwestern Medical Center and Children's Health.

Potential for J-1 Waiver eligibility: No
