

Job Post – Pediatric Infectious Diseases Physician, Children’s Mercy Kansas City

Company: Children's Mercy Hospital

Salary range:

Job Title: Pediatric Infectious Diseases Physician

Organization Type: Non-Profit Organization

Job posting expiration date: 2025-07-01

Brief description of the position: Children’s Mercy Kansas City (CMKC) - Division of Pediatric Infectious Diseases is seeking two BC/BE Pediatric Infectious Diseases specialists at the level of Assistant/Associate Professor. The candidates should have strong clinical skills. Clinical responsibilities of the position will include inpatient consultations and outpatient visits in the Infectious Diseases clinic. Evidence of success in teaching medical students, pediatric residents, and fellows is desired. Academic endeavors are encouraged including participation in bench, clinical research, quality improvement activities, and graduate medical education. Opportunities in antimicrobial stewardship are also available.

The Division staff currently consists of 12 ID faculty, 3 postdoctoral fellows in its accredited Pediatric Infectious Diseases fellowship training program: 5 ID nurse practitioners, 2 PharmD, and a PhD. Seven research coordinators support the ID clinical research efforts. The Division has a strong collaborative relationship with the CMKC Clinical Microbiology Laboratory and its Director, as well as ongoing grant funded studies as part of the National Institute of Health (NIH), Centers for Disease Control and Prevention, Missouri American Academy of Pediatrics (AAP), and the International Maternal Pediatric Adolescent AIDS Clinical Trials Network (IMPAACT). We are also a CDC National Vaccine Surveillance Network site and have ongoing funding from extramural foundations and Biopharma.

Infectious diseases faculty, fellows, and APRNs care for approximately 2000 outpatients annually including patients at the International Adoption, Special Immunology, and Travel Medicine Clinics. Over 1500 new inpatient consults are seen annually including >300 on the Immune Compromised Host service.

Children’s Mercy Kansas City is an independent, non-profit, 390-bed pediatric health system, providing over half a million patient encounters each year for children from across the country. Children’s Mercy is ranked by U.S. News & World Report in nine specialties. We have received Magnet® recognition five times for excellence in nursing services. Children’s Mercy is the first and only freestanding children’s hospital to receive Silver recognition from the American Medical Association as a Joy in Medicine recognized organization for its commitment to preserving the wellbeing of team members through proven efforts to combat work-related stress and burnout. In affiliation with the University of Missouri-Kansas City and the University of Kansas, our faculty of nearly 800 pediatric specialists and researchers are actively involved in clinical care, pediatric research and educating the next generation of pediatricians and pediatric subspecialists.
